MAJOR COURSE SEGMENT	HOURS	LEARNING OUTCOMES
		<i>The student will be able to:</i>
Emergency Procedures	6	Identify signs/symptoms and treatment for possible emergency situations.

Toothbrush and Auxiliary Plaque Control	7	List auxiliary plaque control aids and describe their uses.
Care of Appliances	4	Identify components and maintenance of dental appliances.
Patient Education	6	Outline home care instructions which meet individual patients needs.
Fluorides	8	Identify fluoride uses, effects, and benefits in the dental office and community.
Ultrasonics	3	Describe mode of action and uses for ultrasonic equipment and instrumentation and identify appropriate inserts.
Instrument Sharpening	2	Identify instrument design characteristics.
Evaluation and Recall	3	Describe methods of tissue evaluation and recall/maintenance programs to meet patient's needs.
Periodontal and Dental Indices	3	Describe uses for obtaining plaque, bleeding and calculus indices.
Care of Hypersensitive Teeth	3	Identify contributing factors and treatment techniques for hypersensitive teeth.
45		

COURSE OUTCOMES*	At the successful completion of this course, students will be able to:
	Define vocabulary terminology as it applies to Dental Hygiene II.
	Apply the principles of instrumentation and instrument design on a student.
	Perform the steps for aseptic/infection control techniques used in dentistry.
	Develop a management plan for medical emergencies that may occur in the dental hygiene setting.
	Apply principles and methods of dental hygiene intervention on a student.

* Course Outcomes will be used in the Assessment Software for Outcomes Assessment. Limit to 3 - 5.
