¹ Number of students that applied for financial aid include only those students who completed the FAFSA application and who were enrolled in LLC with at least 1 full credit hour in the academic year. This number also assumes that all students applying for LLC Foundation Scholarships also complete the FAFSA.

² Received financial aid is presented in two ways. The percent eligible column represents the percent of students who received some type of financial aid, and the percent applied column represents the percent of students who applied for FAFSA and received any type of financial aid.

⁴ Includes students who received some type of financial aid such as a scholarship or grant that did not require them to complete the FAFSA.

TOTAL AID	1,990	\$9,790,635.47	\$4,919.92

¹Number of students are NOT mutually exclusive by category. A student can receive multiple types of financial aid. However, the total numbers represent the number of unique students receiving aid in that category.

²Need based aid is based on the student's and/or family's income depending on whether or not the student is financial independent or dependent on the parents. Non need based aid is not based on income. Students can receive both need based and non need based aid in the same year.

Table 6: Summary of Overall Number and Percent of Students Receiving Any Type of Aid over Time

Financial Aid Reporting Year	# Enrolled Credit Seeking Students	# Students Enrolled in Eligible Programs ¹	# Students Received Any Type of Financial Aid	% of Credit Seeking Students Received Any Aid	% of Students Enrolled in Eligible Programs Received Any Aid
2005-2006	11,368	5,425	2,764	24.3%	50.9%
