

BASIC WELDING CERTIFICATE: PROGRAM SCHEDULE

All classes will be held Fall Semester of the 2017-2018 school year.
Welding classes will be held at Effingham High School.
Tech classes are held at Lake Land College Kluthe Center.

Course #	Course Title/Description	Days	Dates	Time	Cost
TEC040-44136	Blueprint Reading: Covers basic through advanced blueprint reading and basic drafting procedures	MW	10/16/17- 12/06/17	1-4 p.m.	\$337.50 Workbook fee \$95.45
TEC043-44137	Industrial Safety: Basic information and procedures concerning industrial safety	MW	08/21/17- 10/13/17	12-12:50 p.m.	\$135
TEC070-44138	Properties of Metal: Familiarizes the student with the need for heat treatment of metals	MW	08/21/17- 10/13/17	1-4 p.m.	\$337.50
WEL056-44140	Metal Cutting & Fabrication: Provides an understanding of metal cutting and fabricating processes	MW	10/16/17- 12/08/17	5-7:50 p.m.	\$270 Course fee \$75
WEL057-44141	Welding Fundamentals: Covers basic welding processes	MW	08/21/17- 10/13/17	5-8:30 p.m.	\$337.50 Course fee \$75

WEL055 is offered fall semester, but is not required for the welding certificate.

WEL055-44139	Pipefitting & Welding: Basic course in pipefitting and welding equipment and safety	TR	10/16/17- 12/08/17	5-9:30 p.m.	\$405 Course fee \$75
--------------	---	----	-----------------------	-------------	-----------------------------

This program provides an introduction to basic welding practices and skills including metal layout and cutting, SMAW, GMAW, and GTAW welding processes. Industrial safety and other skills such as blueprint reading are covered. This certificate is directly applicable to a more advanced welding certificate and a welding associate's degree.

Stop by the Kluthe Center to register. Space is limited.
