

# CELEBRATING STUDENT SUCCESS

## BRUCE SHAMHART, LAKER CLASS OF 2018

Bruce Shamhart graduated in 2018 from the Lake Land College Building Construction Technology (BCT) program.

While enrolled in the program, Bruce had the opportunity to participate in a partnership with the College and Habitat for Humanity Coles County.

"A huge part of construction is teambuilding and teamwork. The Building Construction Technology program and this Habitat build, in particular, helped me prepare for my career. I felt ready for my current job, all because the program got me ready. It's a good feeling when your schoolwork can have an impact on someone." said Bruce.

After graduating from Lake Land, Bruce secured a job as a carpenter/framer with DMI Services in Effingham.
