

Lake Land College Nursing Program Mission

The Mission of the Lake Land College Nursing Programs is to provide excellence in nursing education by engaging minds to acquire the essential knowledge and skills to care for the global community.

Philosophy

Education in the Lake Land College Nursing Programs integrates the Lake Land College Core Values—Excellence, Caring, Teamship, Innovation, and Communication. The faculty expresses the commitment to teaching by using these values to guide our philosophy. We believe the following:

Caring

- ❖ Demonstrates respect for a culturally diverse population.
- ❖ Encourages student autonomy to facilitate the delivery of compassionate client-centered care.
- ❖ Respects individual preferences, values, and goals.

Communication

- ❖ Integrates the use of effective therapeutic techniques in order to care for the global community.
- ❖ Embraces the rights of students and clients.
- ❖ Ensures effectiveness through quality documentation.

Teamship

- ❖ Facilitates the development of multidisciplinary, collaborative relationships.
- ❖ Incorporates appropriate delegation while executing the plan of care.
- ❖ Directs suitable goal setting and prioritized nursing plans of care with clients and families.

Innovation

- ❖ Enhances critical thinking in class and clinical activities by using technology and active learning strategies.
- ❖ Stimulates creativity and flexibility in times of change.
- ❖ Utilizes evidence-based practice to guide care, foster lifelong learning, and identify the need to initiate change.

Excellence

- ❖ Applies nursing standards of practice.

- ❖ Ensures safety of the student and client
- ❖ Supports professional nursing care by adhering to legal and ethical standards while considering the economic impact on the community.
