Lake Land College's expectation is to work with you to create an individualized plan that will provide a seamless transfer in any major, to any university, in any state. Lake Land College utilizes the 2+2 model where a student completes two-years of course work with Lake Land College before transferring to a four-year university. We are intentional about advising students for successful transfer. We have several online resources as well as the Transfer Resource Room where you can meet with four-year college transfer coordinators and view materials from universities around the country.
