Krista has been the single most influential staff member in my personal and professional development while at Lake Land College. She has pushed me to do my best as Phi Theta Kappa chapter advisor, academic counselor, and as a general mentor. She has opened many opportunities for me and has guided me through challenging situations, offering both wisdom and a listening ear. I am a product of the excellence around me, and Krista, being part of that excellence, has created an environment conducive of my continued success. Her example of professionalism and dedication has inspired to be an example for others.

## Rakhsha Nasseripour

Dr. Nasseripour has given me a jump-start into my career. She has connected me to businesses here in central Illinois, showing me that this area has good opportunities for work. She encourages me to apply what I learn in her physics classes in my own projects. This in turn gives me a better appreciation of the world around me, which will serve me for years to come.

## Claire Miller

I only had Claire for one class while at Lake Land but everywhere on campus I always heard great things about her. She is an amazing teacher who never leaves you wondering what she was trying to explain. She is very detailed in her explanations and was always willing to help you if you didn't understand something.

Lisa Earp, Jeanette Holmes, and Amber Webb

These 3 ladies, kept me hanging on. During this 2 years I have gone through the worst emotionally, but these ladies gave me hope to keep pushing through when the world around me was falling apart. I truly will appreciate them for the rest of my life as I would not have made it past my summer semester without the kindness they showed me.

## Molly Yeske

She has made this a great experience for the Hybrid program. It has not been easy and she didn't sugar coat it for us. We have annoyed her and challenged her along the way this year. I will always be glad I did this program and that I had the opportunity to have her as the instructor.
